

Paper, card and cardboard recycling collections for businesses (2012/13)

For those who regularly produce small volumes of paper and cardboard:

Clear trade sacks can be used by businesses to present their paper and cardboard for collection. The sacks come in a roll of 25 and can be purchased for £26.29 by calling our Customer Service Centre on 01206 282700. A delivery charge of £8.05 will apply. However sacks can also be purchased and collected in person from the Customer Service Centre in Angel Court on the High Street on production of your Duty of Care certificate. There is no limit to the number of sacks you can put out for collection.

For those who regularly produce large volumes of paper and cardboard:

Paper and cardboard can be neatly and securely tied into bundles and contained ready for collection. There is no limit to the amount of paper and cardboard that can be placed out for collection and this service will cost £525.74 per year.

Alternatively, your business can purchase suitable containers, such as a roll pallet holding up to a 600kg load costing from [Pallettower Ltd](#) for £84, or an 1100 litre galvanised drop front eurobin from [Egbert Taylor bins](#) for £518.

Please note that the inclusion of these products and companies does not act as an endorsement by the Council, nor is it a criticism of any that are excluded. Prices were correct at the time of publication.

For those who infrequently produce large volumes of paper and cardboard:

We can collect your trade paper and cardboard for £40.88 per collection. It will need to be presented neatly tied and contained or in a container as described above.
